

PF09 Power Management IC Evaluation Board

KITPF09FRDMEVB

Last Updated: Jan 23, 2026

The KITPF09FRDMEVB is a customer evaluation board featuring the PF09, a Nine-channel power management IC with advanced system safety monitoring. The kits integrate all hardware needed to fully evaluate the featured power management-integrated circuit. It integrates a communication bridge based on the FRDM-KL25Z development board to interface with the GUI software interface to fully configure and control the PF09 PMIC.
