

Accessing specialty medications with Rightway.

Rightway is here to help you manage all of your prescription needs, including access to specialty medications.

If you have a chronic or complex health condition, your doctor may recommend a specialty medication. Injections, infusions, and other drugs that require special handling, storage, or delivery are often expensive and only available from specific pharmacies.

That's where Rightway comes in. We partner with several specialty pharmacies to deliver high-quality medications right to your door. Best of all, our specialty pharmacy team takes the hassle out of the process, saving you time and money.

Here's how Rightway can help:

Coordinate with providers and pharmacies on your behalf.

Contact your doctor to start the prior authorization process.

Help you schedule home delivery of your specialty medication.

Answer questions about medication administration and side effects.

Switch you to cost-effective generics or biosimilars when appropriate.

Provide information on copay assistance programs.

Get started today.
